

ENGINE OVERHAUL WARRANTY

Work accomplished by Radial Engines, Ltd. is covered by an express warranty against faulty workmanship and is subject to the provisions below:

General Provisions:

Radial Engines, Ltd warrants its aircraft engines to be free from defects in materials and workmanship only under normal use and service. Radial Engines, Ltd will make corrections or repairs to the engine resulting from defects in materials and faulty workmanship at no charge to the customer at any time during the period covered by this warranty on units delivered to Radial Engines, Ltd located at 9550 W. Seward Rd., Guthrie, OK USA, provided its examination by Radial Engines, Ltd shall disclose to its satisfaction to have been thus defective.

Radial Engines, Ltd. assumes no responsibility for bent or broken rods or parts damaged from failure of same due to hydraulic action resulting from improper engine starting procedures, or for any other operational irregularities resulting from, but not limited to: improper fuels and/or lubricants; inadequate lubricants; operating at excessive temperatures; over-speeding; use of excess power; inadequate maintenance; fouled plugs; or any other related operational or maintenance deficiency. The responsibility of Radial Engines, Ltd. is specifically restricted to those cases that by mutual inspection and agreement reveal a workmanship default in light of the Manufacturer's specifications and FAA regulations.

Radial Engines, Ltd requires all repairs for defective workmanship to be made in its own shops, and will not be responsible for any costs or expenses of any kind or character incurred by the curing of any defective workmanship in any place other than its own shops, unless such work is specifically authorized in writing by Radial Engines, Ltd. prior to its accomplishment. Should an item which is within the warranty period be returned to Radial Engines, Ltd. and it is found that the malfunction or failure was not caused by faulty workmanship, the customer is to pay for all inspection, repair, or overhaul at established rates.

Radial Engines, Ltd. is to be required to accomplish work under this warranty only to the extent of proper correction of the faulty workmanship involved and covered by this warranty. Radial Engines, Ltd. is not responsible for any articles or accessories overhauled by other facilities and installed on engines overhauled by Radial Engines, Ltd. The other facility should be contacted directly for warranty repair work on items overhauled or repaired at their facility.

This warranty does not cover any item unless it is properly installed, operated, and maintained in accordance with FAA and manufacturer's specifications and recommendations. Radial Engines, Ltd will be responsible for proper installations only when such installations are made by Radial Engines, Ltd. Likewise, this warranty shall not apply to any item that has been subject to misuse, neglect or shall have been altered or repaired outside of Radial Engines, Ltd. ' s shops.

Warranty Periods:

Major overhaul of aircraft engines and accessories shall be covered by this warranty for the first 100 hours of operation, or the first year, whichever comes first after acceptance of delivery, or when delivered by shipment, receipt of shipment by the customer. The customer, prior to acceptance of delivery, must file claims based on workmanship not necessarily considered faulty, but considered unsatisfactory or of inferior quality by the customer; or, if delivery is made by shipment, the customer must file such claims on the date of receipt of the shipment. This warranty shall apply only to work of the type specified above.
